Berean Interlinear Bible

The interlinear gloss is a word for word, Greek / Hebrew word order rendering based on the most reliable sources. This text also contains complete parsing tags, as well as Strong's numbers to for easy reference to Greek lexicons. The basis for the interlinear text is the Biblos Interlinear, developed over several years and now refined by the translation committee.

The following are elements for each word of the interlinear:

1. Greek text (See below for sources)
2. Transliteration

3. Morphology: Part of Speech – Person, Tense, Mood, Voice – Case, Number, Gender, Comparison
4. English Gloss
5. Strong's Number
6. Lexical definition
7. Punctuation: Both the Greek text source and, separately, the English gloss are punctuated to assist in reading and understanding.

Greek Sources

The Greek source is documented for all renderings, with the following major sources being considered: Nestle, SBL, and Nestle Aland 28th Edition, Textus Receptus, Byzantine, Greek Orthodox, Tischendorf, Westcott and Hort, as well as a variety of manuscripts on which these critical texts are based.

In producing the translation, weight was given to the more reliable / earlier manuscripts and more recent critical texts. Significant variants are documented and footnoted.

In choosing a base text for the Berean Greek Bible, it was important to start with a source that we can share and make available for free digital use. The Nestle 1904 was chosen, as we believe it is the most accurate critical text currently in the public domain. Paragraph and poetry formatting for the Greek Text has been adapted from Westcott and Hort, 1881.

Significant variants between modern critical texts have been documented and taken into consideration for translation, along with additional manuscript evidence. The following are the major texts included for consideration and documented or footnoted in the Berean Bible:
