Derivatives and Adaptations

By definition all public domain materials may be freely reproduced, integrated, and adapted for both free and commercial resources.

All applications that maintain the verbatim text from the above Berean sites are invited to bear the Berean name. For example, apps, audio, video, print reproductions, and commentaries with cited verses are all encouraged to use and cite the official text.

For derivative works that vary from the official text, we respectfully request that the Berean name is not used. We request the help of the open source community in maintaining an official text.

Print Applications

Developers and Publishers are now free to produce and sell the full Berean Bible in any print format. We will also make available our own resources via PDF. We hope this will expand the possibilities for overseas publishing and specialties such as wide margin, single column, red letter, and Scripture portions.
